

Material Safety Data Sheet

Acc. to 91/155/EEC adjustment acc. to Directive 2001/58/EC
Hoffmann Dental Manufaktur GmbH

Reviewed on: 16 December 2009

1. Identification of substance and manufacturer's name			
Product details/Trade name:			
			
HOFFMANN'S CEMENT QUICK SETTING, Liquid			
Manufacturer/Supplier:			
Wangenheimstr. 37/39, D-14193 Berlin			
Telephone: ++49 (0) 30 / 85 10 27 3			
Fax: ++49 (0) 30 / 82 70 45 40			
Information department/Emergency information:			
Quality assurance department, telephone: ++49 (0) 30 / 85 10 27 52			
e-mail: sicherheit@hoffmann-dental.com			
2. Composition/Data on ingredients			
Chemical characterization:			
Description: Mixture of below-mentioned substances with innocuous additions.			
Hazardous ingredients:			
CAS: 1314-13-2 EINECS: 215-222-5	Zinc Oxide	N; R 51/53	10 – 15 %
CAS: 7664-38-2 EINECS: 231-633-2	Ortho-Phosphoric Acid	C; R 34	> 50 %
3. Hazards identification			
Hazard designation:			
N		Hazardous to the environment	
C		Corrosive	
Special danger warning for human and environment:			
The product has to be labelled due to the calculation procedure of the „EU-Directive of the General Classification of Preparations“ in the latest valid version.			
R 34:		Causes burns.	
R 51/53:		Very toxic to aquatic organisms; may cause long-term harmful effects in the waters.	
Classification system:			
The classification is in compliance with the current EU-lists, but is also completed with details given by technical literature and company.			
4. First aid measures			
General warnings:		Remove contaminated clothing immediately.	
- After skin contact:		Remove by washing with soap under the running water.	
- After eye contact:		Immediately flush opened eye under running water for several minutes (at least 10 min.), consult an eye specialist.	
- After swallowing:		Drink plenty of water, do not induce vomiting (danger of perforation) and consult a physician immediately.	
- After inhaling:		Not applicable.	
5. Fire fighting measures			
Suitable extinguishing agents :			
Special protective equipment:		Not applicable	
		No special measures required.	
6. Accidental release measures			

Material Safety Data Sheet

Acc. to 91/155/EEC adjustment acc. to Directive 2001/58/EC

Hoffmann Dental Manufaktur GmbH

Person-related safety																			
precautions:	Wear personal protective clothing.																		
Environmental precautions:	Inform responsible authorities in case of spillage into waters or sewage system. Dilute with plenty of water.																		
Methods of cleaning up:	Absorb with liquid binding material (chemical binders; use cellulose for small amounts). Use neutralizing agent.																		
Additional information:	See chapter 8 for information about personal protective equipment. See chapter 13 for disposal information.																		
7. Handling and storage																			
Handling:	The product is only for dental use.																		
- Information about safe handling:	Keep containers tightly closed.																		
- Information about protection against explosion and fire:	No special measures are required.																		
Storage:																			
- Information about storage:	Store dry and tightly closed in original container.																		
- Information about storage in one common storage facility:	Not required.																		
- Requirements for storage rooms:	No special requirements.																		
8. Exposure controls and personal protection																			
Data on limiting values that require monitoring at the workplace:																			
<table border="1"> <thead> <tr> <th colspan="3">Ingredients with limiting values that require monitoring at the workplace</th> </tr> </thead> <tbody> <tr> <td>CAS 7664-38-2 Ortho-Phosphoric Acid</td> <td></td> <td>(EU-No.: 231-633-2)</td> </tr> <tr> <td>TLV</td> <td>1 mg/m³</td> <td>EU</td> </tr> </tbody> </table>		Ingredients with limiting values that require monitoring at the workplace			CAS 7664-38-2 Ortho-Phosphoric Acid		(EU-No.: 231-633-2)	TLV	1 mg/m ³	EU

TLV	1 mg/m ³	EU																	
Technical protective measures: Not required.																			
Personal protective equipment:																			
Respiratory protection: Not required.																			
Skin protection: Wear suitable protective gloves; the glove material has to be impermeable and resistant to the product/the substance/the preparation. Due to absent tests no recommendations about the glove material can be given for the product/the preparation/the chemical mixture. The selection of the glove material should be in consideration of the breakthrough time, kinds of permeation and the degradation.																			
Material of gloves: The selection of the suitable gloves does not only depend on material but also on further quality characteristics and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has to be checked prior to the application. Suitable glove material is e. g. butyl rubber, fluorocarbon rubber (Viton), natural rubber (Latex). For the permanent contact of a maximum of 15 minutes gloves made of PVC or PE are suitable.																			
Penetration time of glove material: The exact breakthrough time is to be obtained from the manufacturer of the protective gloves and has to be observed.																			
Eye protection: Protective goggles with side protection are recommended.																			
Body protection: Lightweight protective clothing.																			
General protective and hygienic measures:																			
The usual precautionary measures for contact with chemicals are to observe.																			
9. Physical and chemical properties

Material Safety Data Sheet

Acc. to 91/155/EEC adjustment acc. to Directive 2001/58/EC

Hoffmann Dental Manufaktur GmbH

Autoflammability:	Product does not self ignite.	
Danger of explosion:	Product is not explosive	
Density at 20 °C:	1,8 g/cm ³	
Solubility in water:	fully miscible	
Solvent content:		
Organic solvents:	0,0 %	
Water:	25 %	
VOC EU:	0,0 %	
Solid content:	19 %	
10. Stability and reactivity		
Conditions to be avoided:	No decomposition when used according to regulations.	
Hazardous reactions:	No hazardous reactions are known.	
Hazardous decomposition products:	No hazardous decomposition products are known.	
11. Toxicological information		
Values given below refer to basic substance Phosphoric Acid:		
Acute toxicity: In our experience the product does not cause any noxious effects when used and handled according to regulations.		
LD50 (dermal rabbit):	2740 mg/kg (referring to pure substance)	
LDLo (oral, rat):	1530 mg/kg (referring to pure substance)	
LC50/4h (relating to inhalation, rat)	> 850 mg/l (referring to pure substance)	
Specific symptoms in animal experiments:		
Test for eye irritation (rabbit):	Corrosive effect	
Test for skin irritation (rabbit):	Corrosive effect	
From subacute to chronic toxicity :		
Sensitisation:		
<u>Research on human:</u>	No sensitisation effect	
Mutagenicity:		
Ames-Test:	Negative; no mutagenic effect.	
Irritation effects on human:		
- Swallowing:	Strong corrosive effect on mouth and throat.	
- Skin:	Corrosive effect.	
- Eye:	Strong corrosive effect.	
12. Ecological information		
Referring to main substance:		
Biological decomposition:	Is not determined.	
Ecotoxicological information:	Quantitative data about ecological effects are not available for this product.	
Biological effects:	Very toxic to aquatic organisms. May cause long-term harmful effects in the waters.	
General information:	Prevent releasing into waters, sewage system and soil. Water hazard class 2 (self-assessment): hazardous to water.	
13. Disposal details		
	Product: Do not dispose of together with domestic waste. Prevent releasing into sewage system.	
	Uncleaned packaging: Dispose of in accordance with official regulations.
